

Introducing the laptop

The Lenovo IdeaPad S10e has been selected as the laptop personal computer to be provided to senior secondary students and teachers in NSW government secondary schools.

Lenovo created the IdeaPad S10e specifically for the education sector. It will support a full range of software applications and features high level computing power, storage and memory. The IdeaPad S10e is teenage-friendly, being robust, compact and lightweight. It will easily fit into a school bag.
